WORK EXPERIENCE

Designer • Playtronix

Jul 2025 - Present

- Led design production and visual direction across iGaming projects, ensuring consistent quality and brand execution.
- Created branding and marketing assets including logos, banners, animations, 3D visuals, and digital creatives.
- Developed AI-enhanced workflows to speed up production, explore creative concepts, and improve visual output.

3D Designer • Upwork

Oct 2024 - Mar 2025

- Created 3D models for 3D printing, product visualization, and custom client projects across various industries.
- Developed detailed product visualizations and 3D renders, adapting designs to specific creative and technical requirements.
- Delivered custom 3D solutions from concept to final render, balancing visual quality, functionality, and client expectations.

3D Designer • ArctX Solution

Apr 2024 - Jun 2024

- Created high-quality 3D visuals and stylized assets for online casinos and betting platforms.
- Developed promotional graphics and visual assets to support marketing campaigns and brand communication.
- Contributed to the visual development process during the internship, collaborating on creative concepts and production tasks.

Graphic Designer • Nomi Labs

Jul 2021 - Mar 2023

- Designed thumbnails and banners for digital platforms and marketing campaigns.
- Created branded visual assets aligned with different identities and communication goals.
- Developed engaging marketing creatives focused on strong visual impact and audience attention.

SIDE PROJECTS

- Designed high-CTR YouTube thumbnails, banners, and digital assets, along with static and animated visuals for videos, creating engaging compositions tailored to different content styles and audiences.
